

Riverside Free School Stories/Experiences

1. My name is Aditya Yadav.

My father's name is Brahmanand Yadav. He works in a fabric store. My mother's name is Sitadevi. She works in a bulb factory. I have an older brother and a younger sister.

My brother's name is Chandan Kumar and sister's name is Laxmi. She is studying in class 5 in Riverside Free School. We live in a small house in Tigri Colony near the river from 2015.

Before this I was in a government school with my sister. I was there till class 2. But I was not learning anything there. During that time we moved from there to Tigri Colony.

We heard of Riverside Free School and my father got admission for my sister and me. When I went there, I found I knew nothing compared to the other students who had been studying there. Slowly I picked up English from my teachers and stood third in class. And kept doing better as I moved to higher classes.

Even though the school does not charge any fees, the teachers take great interest not only in academics but also how to be good human beings. How-to live-in peace, love and respect for all. How we should be clean and keep our surroundings clean. All these I learnt from my school.

Sadly they do not have higher classes, so I had to leave class 6. Now I am in another school which is a high school. I want to work hard and stand 1st in class. My father and I together have dreams and I want to make them come true. I want to be a doctor!
